

**Cumulative Contents***Information for Contributors*

vii

*Regular Section**Regular Papers*

Deletion of C-terminal 113 amino acids impairs processing and internalization of human insulin receptor: comparison of receptors expressed in CHO and NIH-3T3 cells

*R. Levy-Toledano, D. Accili and S.I. Taylor (USA)*

Topology of catalase assembly in human skin fibroblasts

*E. Middelkoop, E.A.C. Wiemer, D.E.T. Schoenmaker, A. Strijland and J.M. Tager (Netherlands)*

Nucleoside-triphosphate binding of the two cytosolic components of the respiratory burst oxidase system: evidence for its inhibition by the 2',3'-dialdehyde derivative of NADPH and desensitization in their translocated states

*H. Mizunari, K. Kakinuma, K. Suzuki, H. Namiki, T. Kuratsuji and S. Tsunawaki (Japan)*

cAMP-induced changes of intracellular free Mg<sup>2+</sup> levels in human erythrocytes

*T. Matsuura, Y. Kanayama, T. Inoue, T. Takeda and I. Morishima (Japan)*

Ca<sup>2+</sup> entry pathways activated by the tumor promoter thapsigargin in human platelets

*Y. Hashimoto, T. Watanabe, M. Kinoshita, K. Tsukamoto, M. Togo, Y. Horie, Y. Matsuda and K. Kurokawa (Japan)*

*Subsection**Regular Papers*

Activation of phospholipase D in CHO cells transfected with the human epidermal growth factor (EGF) receptor: differential effects of protein kinase C activation and EGF

*M. Dunlop and S. Clark (Australia)*

Characterization of the α<sub>1</sub>-adrenoceptor-mediated responses in perfused rat liver

*E. Urcelay, N. Butta, M.J. Arias-Salgado, M.S. Ayuso and R. Parrilla (Spain)*

Involvement of protein kinase C in the interleukin 1α-induced gene expression of matrix metalloproteinases and tissue inhibitor-1 of metalloproteinases (TIMP-1) in human uterine cervical fibroblasts

*S. Takahashi, T. Sato, A. Ito, Y. Ojima, T. Hosono, H. Nagase and Y. Mori (Japan, USA)* 57

Reduced sodium pump activity in inositol-deficient HL-60 cells: no evidence of control by protein kinase C

*J. Allard, D.P.W. Lennon, M.R. Greenwood, A.J. Buckenham and J.N. Hawthorne (UK, France)* 66

H7-resistant protein kinase C substrates in two-dimensional gels of proestrous rat anterior pituitary gland

*J. Simpson, M.S. Johnson and R. Mitchell (UK)* 69

Regulation of agonist binding to A<sub>2A</sub> adenosine receptors: effects of guanine nucleotides (GDP[S] and GTP[S]) and Mg<sup>2+</sup> ion

*M.R. Mazzoni, C. Martini and A. Lucacchini (Italy)* 76

Hydrodynamic characterization and DNA-binding properties of the liganded and unliganded forms of the retinoic-acid receptor α from human HL-60 cells

*B. Sablonniere, N. Dallery, P.-M. Danze, P. Hublau, P. Formstecher and M. Dautrevaux (France)* 85

Class I major histocompatibility complex antigens are not associated with the LH/CG receptor on ovine luteal cells

*N. Kenny, N.A. Rahman, B.G. Barisas and D.A. Roess (USA)* 94

*Regular Section**Regular Papers*

Ca<sup>2+</sup> entry through L-type voltage-sensitive Ca<sup>2+</sup> channels stimulates the release of human chorionic gonadotrophin and placental lactogen by placental explants

*S. Meuris, B. Polliotti, C. Robyn and P. Lebrun (Belgium)* 101

Isolation and characterization of a growth inhibitory factor from hamster liver

*C. Hashimoto, M. Ayaki and Y. Inui (Japan)* 107

In vitro evidence for involvement of CoA thioesters in peroxisome proliferation and hypolipidaemia <i>K.E. Tomaszewski and R.L. Melnick (USA)</i>	118
Effect of progesterone on hydrophobic cell-associated proteoglycans bound to cholesterol sulfate in glandular epithelial cells of guinea-pig endometrium <i>M. Nicollier, L. Beck, A. Mahfoudi, V. Coosemans and G.L. Adessi (France)</i>	125
Different development of apical and basolateral Na-H exchangers in LLC-PK <sub>1</sub> renal epithelial cells: characterization by inhibitors and anti-sense oligonucleotide <i>M. Kuwahara, S. Sasaki, S. Uchida, E.J. Crago Jr. and F. Marumo (Japan, USA)</i>	132
Regulatory volume decrease of cultured human fibroblasts involves changes in intracellular amino-acid pool <i>V. Dall'Asta, P.A. Rossi, O. Bussolati and G.C. Gazzola (Italy)</i>	139
<b>Subsection</b>	
<b>Minireview</b>	
Molecular mechanisms in the control of translation by hormones and growth factors <i>N.T. Redpath and C.G. Proud (UK)</i>	147
<b>Regular Papers</b>	
In vitro activation of brain protein kinase C by the cannabinoids <i>C.J. Hillard and J.A. Auchampach (USA)</i>	163
Stimulation of arachidonic-acid release from Swiss 3T3 cells by recombinant basic fibroblast growth factor: independence from phosphoinositide turnover <i>K. Virdee, B.L. Brown and P.R.M. Dobson (UK)</i>	171
Effects of two neuronal antidiuretic molecules, neuroparsin and 5-hydroxytryptamine, on cytosolic free calcium monitored with indo-1 in epithelial and muscular cells of the African locust rectum <i>B. Fournier, N. Guérineau, P. Mollard and J. Girardie (France)</i>	181
Identification of an alternative form of the <i>Drosophila</i> Ca <sup>2+</sup> /calmodulin-dependent protein kinase II that is maternally derived <i>Y. Takamatsu, S. Ohsako, Y. Nishida and T. Yamauchi (Japan)</i>	188
Expression and secretion of parathyroid hormone-related protein by a human cancer cell line <i>J.F. Emly, S. Hughes, E. Green and W.A. Ratcliffe (UK)</i>	193
Effect of inhibition of microsomal Ca <sup>2+</sup> -ATPase on cytoplasmic calcium and enzyme secretion in pancreatic acini <i>D.C. Metz, T.K. Pradhan, J.E. Mrozinski Jr., R.T. Jensen, R.J. Turner, R.J. Patto and J.D. Gardner (USA)</i>	199
<b>Rapid Report</b>	
Nucleotide sequences of two newt ( <i>Notophthalmus viridescens</i> ) fibroblast growth factor receptor-2 variants <i>M.L. Poulin and I.-M. Chiu (USA)</i>	209
<b>Short Sequence-Papers</b>	
Three genes for protein phosphatase 1 map to different human chromosomes: sequence, expression and gene localisation of protein serine/threonine phosphatase 1 beta (PPP1CB) <i>H.M. Barker, N.D. Brewis, A.J. Street, N.K. Spurr and P.T.W. Cohen (UK)</i>	212
Isolation and sequence of a full length cDNA encoding a novel rat inositol 1,4,5-trisphosphate 3-kinase <i>S. Thomas, B. Brake, J.P. Luzio, K. Stanley and G. Banting (UK, Germany, Australia)</i>	219
Molecular cloning and sequencing of a carp cDNA encoding mitogen-activated protein kinase kinase kinase <i>C.-J. Huang, M.-S. Lee, G.-D. Chang, F.-L. Huang and T.-B. Lo (ROC)</i>	223
<b>Errata</b>	227
<b>Regular Section</b>	
<b>Regular Papers</b>	
Carrier-protein-mediated enhancement of fatty-acid binding and internalization in human T-lymphocytes <i>J. Uriel, J.-M. Torres and A. Anel (France, Spain)</i>	231
Carbachol stimulates Cl <sup>-</sup> secretion via activation of two distinct apical Cl <sup>-</sup> pathways in cultured human T <sub>84</sub> intestinal epithelial monolayers <i>G.T.A. McEwan, B.H. Hirst and N.L. Simmons (UK)</i>	241
Thapsigargin-induced [Ca <sup>2+</sup> ] <sub>i</sub> increase activates sodium influx in human platelets <i>M. Tepel, H. Wischniowski and W. Zidek (Germany)</i>	248
The requirement of p47 phosphorylation for activation of NADPH oxidase by opsonized zymosan in human neutrophils <i>R. Levy, R. Dana, T.L. Leto and H.L. Malech (Israel, USA)</i>	253

Elevated NADPH-oxidase activity in neutrophils from bile-duct-ligated rats: changes in the kinetic parameters and in the oxidase cytosolic factor p47

*R. Levy, O. Nagauker, E. Sikuler, T.L. Leto and F. Schlaeffer (Israel, USA)*

261

Irradiation of bovine aortic endothelial cells enhances the synthesis and secretion of sulphated glycosaminoglycans

*D.A. Pye, S. Kumar, M.J. Wang and R.D. Hunter (UK)*

266

Effects of high and low pH on  $\text{Ca}^{2+}$  and on cell injury evoked by anoxia in perfused rat hepatocytes

*A. Gasbarrini, P. Caraceni, H. Farghali, D.H. Van Thiel and A.B. Borle (USA)*

277

A role for oxygen radicals in rat monocytic leukemia cell differentiation under stimulation with platelet-activating factor

*J. Nishihira, T. Ishibashi, N. Takeichi, W. Sakamoto and M. Nakamura (Japan)*

286

Partial purification and characterization of 'injurin-like' factor which stimulates production of hepatocyte growth factor

*H. Okazaki, K. Matsumoto and T. Nakamura (Japan)*

291

Participation of glycosylated residues in the human sperm acrosome reaction: possible role of N-acetylglucosaminidase

*A. Brandelli, P.V. Miranda and J.G. Tezon (Argentina)*

299

The effect of arachidonic acid on the hydroosmotic action of vasopressin in frog urinary bladder

*D.L. Firsov and R.G. Paranova (Russia)*

305

### Rapid Report

$\text{K}^+$  ionophores inhibit nerve growth factor-induced neuronal differentiation in rat adrenal pheochromocytoma PC12 cells

*H. Harada, M. Morita and Y. Suketa (Japan)*

310

### Subsection

#### Regular Papers

Lipocortin I is not accessible for protein kinase C bound to the cytoplasmic surface of the plasma membrane in streptolysin-O-permeabilized pig granulocytes

*G. Farkas, L. Buday, P. Csermely and A. Faragó (Hungary)*

315

Formation of endogenous free sphingoid bases in cells induced by changing medium conditions

*Y. Lavie, J.K. Blusztajn and M. Liscovitch (Israel, USA)*

323

#### Short Sequence-Papers

cDNA cloning and sequence analysis of the bovine adrenocorticotrophic hormone (ACTH) receptor

*M. Raikhinstein, M. Zohar and I. Hanukoglu (Israel)*

329

Sequence of the 3'-noncoding region of the luteinizing hormone receptor gene and identification of two polyadenylation domains that generate the major mRNA forms

*Z.-Z. Hu, E. Buczko, L. Zhuang and M.L. Dufau (USA)*

333
